Report on Two-day workshop on

"Pixel to Perfection: UI/UX Development"

A two-day workshop on "Pixel to Perfection: UI/UX Development" was successfully organized by Vidyabharti College of Master in Computer Application (MCA, MBA & IMSc.IT) on 22nd and 23rd April 2026 for MCA 2nd semester students. The primary objective of the workshop was to bridge the gap between theoretical knowledge and practical implementation of user interface and user experience design, enabling students to understand modern design principles and development workflows.

The workshop was conducted by Mr. Avinaash Patel, CEO and Founder of Preyan Technosys, Chikhli, along with his team. He served as the keynote speaker and resource person for both days. With his industry expertise and hands-on experience, he provided valuable insights into evolving trends in UI/UX design and development. His sessions were interactive, informative, and enriched with real-world examples that helped students grasp complex concepts with ease.

On the first day, 22nd April 2026, students from MCA Semester 2, Division A actively participated in the workshop. The session focused on the fundamentals of UI/UX design, including principles of design thinking, wireframing, prototyping, color theory, typography, and user-centered design. Students were introduced to modern design tools and techniques, along with best practices followed in the industry. The speaker also demonstrated how to transform ideas into visually appealing and user-friendly interfaces.

On the second day, 23rd April 2026, the workshop was conducted for MCA Semester 2, Division B students. This session emphasized practical implementation, where students were guided through the process of converting design concepts into functional UI components. Topics such as responsive design, usability testing, and front-end integration were covered in detail. The hands-on approach allowed students to experiment with design tools and gain confidence in applying their learning.

Overall, around 120 students participated enthusiastically in the workshop across both days. The event provided an excellent platform for students to enhance their skills in UI/UX development and understand industry expectations. The interactive sessions, combined with practical demonstrations, made the learning experience engaging and impactful.

The workshop concluded with a feedback session, where students expressed their appreciation for the informative content and practical exposure. The efforts of the organizing team and the valuable contribution of the speaker made the event a grand success, leaving participants motivated to further explore the field of UI/UX development.
