Expert session on ".NET Essentials in Development"

An expert session on **".NET Essentials in Development"** was successfully organized on 3rd July 2025 for the students of Master in Computer Application (MCA) at Vidyabharti Trust College of Master in Computer Application, Umrakh, Bardoli. The session was conducted by **Dr. Mayank Jain**, Assistant Professor at Sarvajanik College of Engineering & Technology, Surat. Dr. Jain is a renowned academician with extensive expertise in the field of software development and .NET technologies. His insights and practical knowledge significantly enriched the learning experience of the participants.

The session aimed to provide students with foundational as well as advanced knowledge of the .NET framework, a crucial platform for application development in the current industry scenario. Dr. Jain covered essential concepts including the architecture of .NET, CLR (Common Language Runtime), C# programming, ASP.NET for web development, and the integration of Entity Framework for database operations. The session also touched upon the latest trends in .NET Core and its cross-platform development capabilities, which are gaining popularity in modern software ecosystems.

Around 110 MCA students actively participated in the session, which was both informative and interactive. Students had the opportunity to clear their doubts through real-time Q&A interactions. Dr. Jain also shared live demonstrations and code snippets that helped bridge the gap between theory and practical implementation. The session was highly appreciated by the students for its clarity, relevance, and applicability in real-world projects.

The expert session concluded with a formal vote of thanks extended to Dr. Mayank Jain for his valuable contribution. Faculty members acknowledged the importance of such expert interactions in shaping students' professional skills and keeping them updated with current industry standards. Overall, the session proved to be a fruitful learning experience, enhancing the technical competencies of the attendees and motivating them to explore further in the domain of .NET development.
