International Conference on Digital Transformation and Social Development

ABOUT VBTicon 2024

Digital Transformation involves technologies like artificial intelligence (AI), Machine Learning, IoT, Cloud Computing and Data Analytics into various aspects of a business. Digital transformation is the rewiring of an organization with the goal of creating value by continuously deploying tech at scale.

Rapid and unpredictable digital technology innovation is reshaping economic, social and cultural systems. Digital technology can also widen socioeconomic gaps for those who lack internet, connectivity, affordable devices or the skills to benefit from digital services. The result of digital transformation, our lives have been changing dramatically and it has a huge impact on every aspect of our life work, entertainment, sociality, politics, ethics, environment, health and more.

We believe that together we can better understand how to navigate the challenges and opportunities of the digital age. VBTicon-2024 brings together people from around the world to learn from each other and find ways to use technology for the good of society. VBTicon-2024 provides a platform to showcase original research for researchers, academicians, policymakers, and industry experts to share ideas and work together.
